Winter Ball Dance Plans Being Made

By TROY WOODWARD

The Winter Ball will be held December 17 at the San Carlos hotel, in Monterey, Miss Barbara Perelli-Minetti, social activities chairman, announced recently.

A contest for the submition of a theme and bid design is being staged now. All students who have suggestions for the coming winter event are to submit them to Mr. Leon Amyx, Hartnell teacher, or Miss Perelli-Minetti before November 10. A free bid to the ball will be awarded to the person submitting the winning theme. Judging the final suggestions will be the social activities theme committee which is made up of the following students: Roxie Teague, Shirley Hennigan, Claudia Adams, Dennis Crinnion, Douglas Bird, Pete Felice, and Marilyn Ingols.

The winter ball will be held from 9:30 p.m. to 2 a.m. A major highlight of the formal affair will be a buffet supper to be served at midnight.

Bids for the ball will go on sale December 5; the price will be \$5.50.

Committee chairman for the event are decorations, Claudia Adams; publicity, Roxie Teague; and bids, Marilyn Ingols. Miss Perelli-Minetti is over-all chairman.

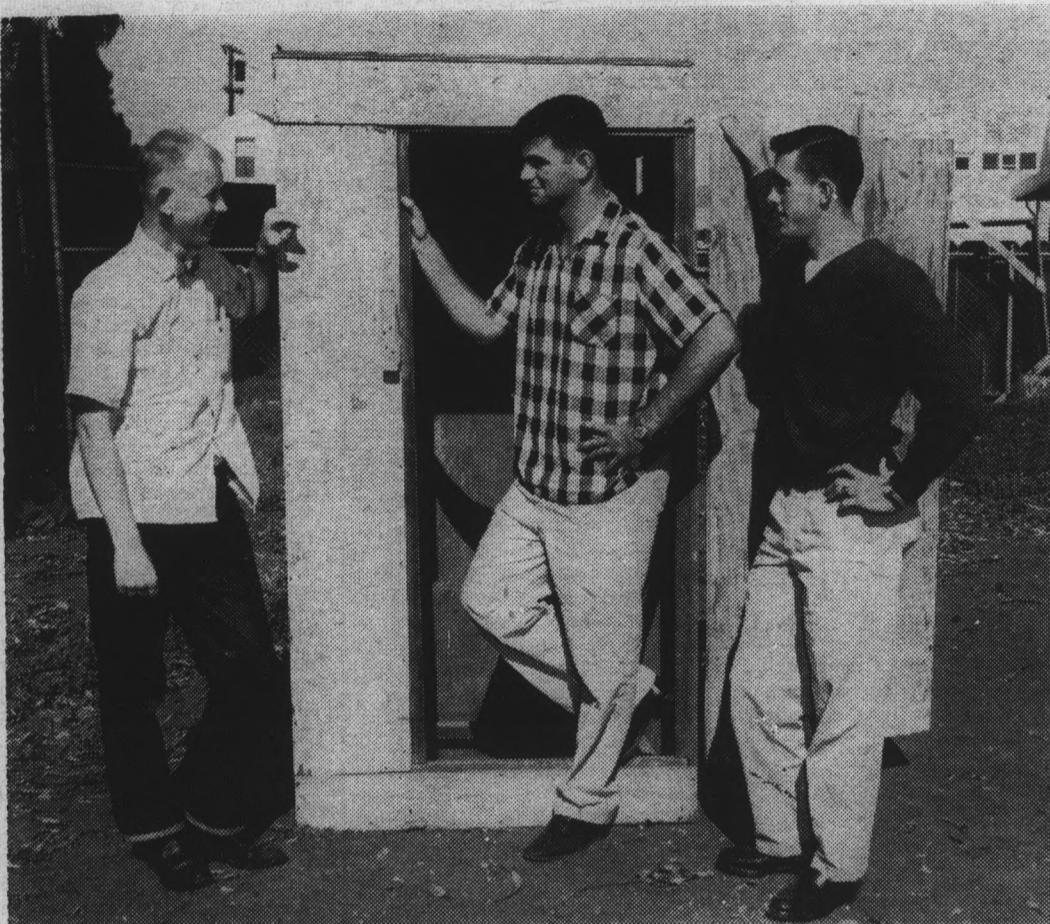

Model Oil Field Is Shown By Oil Man To Engineer Class

A demonstration of a model oil field was given for the Hartnell college engineering 48 class Friday by Don Logsdon, petroleum engineer for the Buyma plant of the Richfield Oil company. The model showed how oil, natural gas and salt move about in the oil bearing sand deep in the earth.

The speaker pointed out that by ordinary methods, only about 20 per cent of the oil is obtained, but by the economical method of nitration up to 55 per cent can be salvaged. He claimed this practice would change California's oil reserve from four billion to about nine billion barrels.

W. R. Bullis, class instructor, invited other engineering students who were not enrolled in the class to attend the demonstration. The students were given a chance

(Continued on Page 3)

This relic of the past is an "outhouse," for the benefit of you moderns. This fine specimen was found on the Hartnell lawn following Halloween night. It was in front of our beloved marble Panther and is believed to be the work of some of the "Sardine City" crew. The fact that the "M" was enlarged gives rise to the conclusion. Inspecting this sturdy old building are Len Klempnauer, Panther Sentinel editor; Max Anderson, guard on the football team; and Rene Eris, student body president.

'Rumpelstiltskin' Has Near-Capacity Crowd As Jeanne Robertson Shines In Title Role

A near-capacity crowd was on hand at the Salinas Union high school auditorium Friday night for the Hartnell college-community players performance of "Rumpelstiltskin."

Jeanne Robertson, veteran Hartnell actress, stole the show with her sparkling portrayal of the difficult title role.

For maximum effectiveness, "Rumpelstiltskin" had to be a character with elements of good as well as evil. Miss Robertson did an excellent job of reflecting both sides.

Another fine performance was turned in by Judy Woodward, the miller's daughter. The contrast between Miss Woodward's role and "Rumpelstiltskin" added much to the play.

Additional credit is due Michael Buntin, the prince, Ted Switzer, the miller, and Marion Lewis, the miller's wife. Buntin's strong projection helped to bring the show to the distant corners of the audi-

tum, while Switzer and Miss Lewis did very capable jobs in their supporting roles.

The cast for the production was as follows: Miss Robertson, "Rumpelstiltskin;" Miss Woodward, the miller's daughter; Switzer, the miller; Gary Harney, the king; Miss Lewis, the miller's wife; Barbara Mills, the king's daughter; Buntin, the prince; Mrs. Connie Balestrieri, "Rumpelstiltskin's" mother; Leland Dast and Frank Interbitzen, couriers.

One of the most interesting features of the play was the use of what is called a "scrim" in theatre terminology. This was a large cloth stretched over a frame and painted to look like a brick wall when viewed with normal stage lighting. When light was behind, however, the home of Rumpelstiltskin could be seen through it.

The play, directed by Mr. Hal Ulrich, Hartnell drama director, was well received by a large audience. Many children were in the crowd.

School Board Receives Answer On Furniture

By CLIFF PLETSCHET

The Associated Student Body commissioners of Hartnell college have formulated an answer to the Board of Education's stand on the financing of the Student Union furniture.

A few weeks ago the board decided to ask the students to pay off a \$12,000 furniture bill at \$1000 per year. At Monday's meeting of the commission the following letter was adopted to be sent to Superintendent J. Frederic Ching via Mr. Stuart Dufour, Hartnell president:

"The Student Commission of Hartnell college wishes to thank you for the time you spent discussing the matter of our responsibility in connection with the furniture which the college district is placing in the Student Union.

"The Commission wishes to call to your attention the program which it has under consideration with the Student Union. Money has already been set aside to:

"1 — provide a system of 'background music' in the lounges of the Student Union. This is expected to cost about \$1000.00.

"2 — provide a new trophy case at a cost of about \$300.00.

"3 — provide a large 'Panther' plaque for the mantel of the fireplace. The cost is estimated at about \$150.00.

"4 — provide a suitable memorial tablet in honor of John B. Lemos. At least \$100.00.

"The funds for these projects are appropriated and available at the present time. In view of the fact that the student body is spending some \$1500.00 this year on the Student Union and in view of the fact that furniture has not yet arrived for the Student Union, it is proposed:

(Continued on Page 2)

Students Needed At Council Sessions

Hartnell's Inter-Club Council met recently and discussed penalty for the absence of representatives from the I.C.C.

It was brought up that the constitution states that any club with no representation at three or more I.C.C. meetings in a semester shall be considered no longer operating.

Permission was also granted for the Ski club to have a dance on November 2.

Coffey Is Picked Ski Club Leader For School Year

Mike Coffey has been elected president of the Hartnell Ski club to serve for the 1955-56 year. Other officers are Merri Irving, vice-president; Sally Closter, secretary; John Curtis, treasurer; and Martha Lou Cowles, publicity.

Selecting a site for the coming ski trip was discussed and a committee was chosen to search for a suitable location. Among those under consideration were Pine Crest and Yosemite.

A dance has been planned by the organization to follow the Hartnell-San Jose J.C. game. It will be called the Sno-ball. Admission will be \$1.00 for couples and 75 cents for stags. Furnishing the music will be the Rhythm Kings and the dance will take place in the men's gymnasium.

Theater Tryouts Staged Last Night

Opening tryouts for the College-Community Theatre's forthcoming production of "Scrooge" were held last night in the Hartnell college Little Theatre, it was announced by Hal Ulrich, director.

The director said the play may be televised by Channel 8. He indicated, however, that work on this possibility is still in the initial stage.

The three-act play about Charles Dickens' immortal characters in "A Christmas Carol" will be presented December 15, 16 and 17.

Student Commission Gives Reasons For Opposing Furniture Assessment

We believe that the Associated Student Body commissioners have presented a very convincing answer to Board of Education's request that the students of Hartnell pay for the Student Union furniture.

In effect, they haven't said "no" and they haven't said "yes."

They have merely given reasons why this year's students should not be assessed, and at the same time they have not bound future students to meet the payments. This is the "no" element.

The "yes" element is manifested solely in the fact that the answer doesn't state, "We will not remunerate."

We are sure that when the board considers the large amount of money already allocated by this year's students (and this includes a \$1,000 repair fund) for the improvement of the Student Union, they will waive payment for one year.

On page one of this issue, the letter that is on its way to Superintendent J. Frederic Ching via Hartnell President Stuart Dufour is presented in its entirety.

We feel that the commissioners have given proof that they have sufficiently met this year's financial obligations as far as the Student Union is concerned and that they have presented a workable technique for determining payment by future students.

The method in which this matter was handled is only one more indication of how your student body commissioners are working for you. For remember, it's YOUR money with which they are working.

Two \$100 Scholarships Are Offered In Agriculture And Home Economics

Two scholarships in the amount of \$100 each have been offered in the field of agriculture and home economics by the Monterey County Pomona Grange No. 17, it was announced this week by Dr. William J. McCallum, Hartnell college dean of men.

Open to both Hartnell and Monterey Peninsula college graduates, the scholarships are financed by funds which have come through subordinate county granges to the head grange.

Briefly, the agriculture scholarship requires that the student spend one year at Hartnell A. and M. or M.P.C., that he attain a 2.00 average, that he accumulate sufficient grade points, that he be of good character and interested in agriculture work.

The home economics scholarship requires that the student attain 60 transferable units, attain a 2.00 average, attain 18 units in home economics field, secure a recommendation from a home economics instructor, and aim at attending a four year college as a home economics major.

If more than one student should apply for one of these scholarships in a single year they will be granted on a basis of need.

Full details concerning these scholarships are posted on the main bulletin board at Hartnell college.

Geologists Learn About Oil Waste

Virgil McNabb of the Richfield Oil company spoke to the geology class at Hartnell Friday.

The topic of Mr. McNabb's talk was conservation of California's oil resources.

Mr. McNabb explained to the class the benefits of using the unitary plan in working an oil field. He said that California's future oil production could be increased by over twice as much if all fields were to be worked by this plan.

As supplements to the talk, pamphlets were available and a movie was shown.

Dr. Feder's Cats Add Distinction To Hartnell Halls

Editor's note: Another in the weekly series interviewing new instructors at Hartnell college.

The overpowering odor coming from the science wing this week may be partly laid to Dr. Howard Feder, new instructor in bacteriology, physiology and zoology. The science majors are at present dissecting several "Felis libyca domestica," which also may be called alley cats.

He was born in New York city and attended public schools there until his family moved to California. He then finished high school in Los Angeles. Upon his graduation from high school, he enrolled in the University of California at Los Angeles, eventually receiving his Bachelor of Arts and Master's degrees. It was at this time he was called into the army and he then attended the University of Southern California for one and a half years, emerging as a dental technician.

After being detached from the army, he began his graduate work at Stanford university and the Hopkins Marine station at Pacific Grove. He also spent a year at Point Barrow in Northern Alaska with the Office of Naval Research.

Dr. Feder did considerable skin diving while in Southern California. While skin diving is his hobby, he also uses it as a means of studying various forms of sea life.

He is married and has a two year old girl.

OIL . . .

(Continued From Page 1)

to ask questions.

The next speaker for the class will be Edward Demars, member of the Monterey county planning commission, who will discuss the work of a county engineer and the opportunities in engineering with a municipality. He will speak November 4. Mr. Demars is a Hartnell graduate.

On November 18, Sam Black, another Hartnell graduate, will address the class.

Book Store Gets Special Attention Of Commissioners

At Monday's meeting of the student commissioners, Larry Dimmick, chairman of the book store committee, gave a report that was adopted as a resolution by the commissioners.

In effect, it stated that a stock clerk should be hired, that the salary of certain book store employees be raised, and that a book store balance be made public at regular intervals.

The resolution was directed to Mr. Stuart Dufour, Hartnell president.

Robert "Skip" Curtis, chairman of the Student Union committee, reported that his group had fashioned a code of conduct.

The code, officially adopted by the commission, pertains to rules on smoking, eating, "horseplay," noise, etc. in the main lounge and women's lounge. The code will be posted.

Vice-President Frank Sherrill, also chief justice of the student supreme court, announced a slate of associate justices. President Rene Eris stated that he will officially appoint them at a later date.

They are Don Shirk, Roger Lovato, Robert "Skip" Curtis, and Paul Heaney. Catherine Bennett was named as secretary.

In other action at Monday's meeting, the Art club was granted the right to sell football programs, and Sam Zuckswert announced that a \$669.27 sound system bid had been received from Gadsby's Music company. The commission decided to act on the bid at the next regular meeting.

The big topic of discussion at the session was the answer to the Board of Education on the financing of the Student Union furniture. (Story on page 1.)

SCHOOL BOARD . . .

(Continued From Page 1)

"a — the Associated Students of Hartnell college, THIS YEAR, will not be called upon to make any contributions beyond the \$1000 which has already been set aside to cover any damage and repairs to the furniture.

"b — next year, the superintendent, together with the Student Commission and the president of the college, determine whether any additional funds need be set aside to cover furniture damage and repair. It is expected that this will be determined in light of the experiences of the first year's use of the furniture by the students of Hartnell college."

The commissioners are now awaiting official word from Mr. Dufour.

MEN'S CLUB CLOSING

William C. Criswell, advisor to the Men's club, stated Tuesday that Men's club activities are mostly over for this year. According to Mr. Criswell, the Men's club dinner was the big event of the year for the club.

Panther's Claw

By CLIFF PLETSCHET

ACHOO, COUGH, ETC.: This week, this haggard scribe has a legitimate complaint for once. He is suffering from what is uncommonly known as coryza. Despite this fact he will go on to defend his title as world champion wind-bag.

THERE'S a lot of gals at Hartnell that wish Businessman Milt Codiroli would open a branch office here. Milt, formerly of this school, is running a date bureau at San Jose State. He's making a mint and gets the choice goods for his own keeping, at wholesale prices yet! . . . Hartnell cheer leader Duane Beadle, turned song writer, really came up with something good in "Hartnell College Pep Song," to the tune of "On Wisconsin." Noted at the assembly that everyone sang out.

WHAT'S IN A NAME: Ben "Pancho" Lopez of our school has thirteen names. He is really Benigno Theodore Alfredo Jesus Gilberto Antonio Rafael Luis Faustina Juan Ramon Lopez. There are only twelve listed here because Pancho forgot number thirteen. Imagine forgetting your own name.

Pancho gives this reason for all the names: In the little town of St. John's, Arizona, where he was born, all the men of the town had one of these names. Each man wanted the new member of the Lopez family named after him. Hence all the names.

LAUGH OF THE WEEK: Our efficient office staff posted a list of persons last week who had not, as yet, filled out their final study cards. Among the names was one Finis Jeffers who was graduated from Hartnell nine years ago!

CREAM PUFFS A LA ONIONS: So it's against the law for M.P.C. boys to come onto Hartnell campus without official aims, eh? Well, what about P. M. of M.P.C. who spent most of one day last week around our buildings. Hint: He went here last year. . . . Among those who recently dropped out of school: Joann Hartnell and Johana Lo Monaco. The former abandoned her ancestor's establishment. Not to go elsewhere, I hope. The latter was an unsuccessful Homecoming queen aspirant. Not the reason, not the reason.

I LIE AWAKE AT NIGHT, ETC.: Food for thought: Has there ever been a football score 3-2? Has there ever been a football score 49-48 where the winning team scored 7 touchdowns and the losing team scored 8. Eh, what's that? . . . Speaking of football there was a big explosion in front of the men's dorm (yes, he said dorm) last week. Pre-game rally? Early Fourth of July? Big party? I dunno. . . . More food (or beverage) for thought: The caf staff begs all you late coffee-sippers to please return your cups to the dishwasher before 4 p.m. I heard a rumor along these lines: If the cups aren't brought back pronto after being emptied there may be a request through channels for a price boost to ten cents. Cooperate and save later, I say.

Rules Established For Students In Lounge Building

Soon the new John B. Lemos Student Union building will be opened in its entirety for use by the students of Hartnell college. When the Student Union is open for full time use, the students are expected to conduct themselves as adults.

The Student Union committee of the Associated Student Body commission has established a set of rules and regulations that all should abide by.

The rules are:

1. Students are permitted to smoke.
2. Shoes are to be kept off all tables.
3. There shall be no "horseplay."
4. There shall be no loud, boisterous noise.
5. There shall be no eating and/or drinking within the student lounge premises.

Anyone not acting in accordance with this "Code of Conduct" will be referred to the Supreme Court.

Singers Are Featured In Rally Program

The Watsonville Lion's club singing quartet will be featured at today's rally, according to Ted Switzer, rally commissioner.

The barbershop quartet will give a 30 minute program of harmonized song. The rally is scheduled to begin at 1 o'clock in the men's gym.

THE COOL AND QUIET

By JOHN LAUE

One of the nicest things you can say about a modern day jazzman is that he reminds you of Gerry Mulligan. Some of the freshest and most interesting sounds to come out of jazz for a long time originated with him.

Philadelphia-born Mulligan, now in his late twenties, has made a remarkable impression on contemporary music. He is tops not only as a baritone sax player, but also as a composer and arranger.

Some early Mulligan compositions, such as "Elevation," "Swinghouse," and "Disk Jockey Jump," were recorded by bands of Claude Thornhill, Elliot Lawrence, and Gene Krupa.

Probably the thing that meant most to Gerry's rise to fame, though, was his arrival in Los Angeles in 1952 to take over the regular Tuesday night jazz concert at the Haig, a small night spot.

Under his influence, a quartet with an unusually subtle approach to jazz was born. It featured contrapuntal byplay between Gerry, on his baritone, and Chet Baker, trumpet player now gone on to fame in his own right.

The most amazing thing about the Gerry Mulligan quartet was the absence of a piano. The usual function of the piano is feed the chords to the solo horns, which can only play within the limits of those chords.

When Mulligan eliminated this dominant instrument from his group, he opened up whole new fields of exploration for his solo instruments. Soon his records made the critics rave and his fortune was made.

For anyone wishing to add a few Mulligan records to his collection, just go to your nearest music store. If the store sells jazz records at all, some of Gerry's work is sure to be there.

Japanese Student Finds Our Movies Give False Ideas

By Mrs. Marjorie Hitchcock

Everyone in the United States isn't a millionaire, a gangster, or a wild western cowboy, Kiyoshi Matsukuma, a graduate student at Hartnell, found when he arrived here from Japan two and one-half years ago. American movies, he learned, portray life in United States as much more exotic and luxurious than that actually enjoyed by most of its citizens.

But, Matsukuma says, "America is wonderful, the people are wonderful and the food is wonderful, although it took him a little time to get used to the lack of rice. He is especially enthusiastic about the climate. He doesn't miss one bit the terrible typhoons which sweep up from the south almost every year between September 1 and September 10, causing horrible destruction and death. Nor does he miss the hot summers and severe winters. But the mention of spring, and the lovely blossoming cherry trees, brings a definite homesick tone to his voice. 'Spring is season so very good,' he says.

What amazed him most when he arrived here? Why the number of automobiles we have, and the traffic jams and our wide, paved highways. "In Japan there are very few automobiles. We have bicycle jams there," he said.

Matsukuma is from Senzu, a very small village in Kaho county, Fukuoka prefecture, on the island of Kyushu in Japan. Kyushu island is south of Korea. He lived on a farm there where his father raised rice, wheat and vegetables. Both his parents are now dead, but he has three brothers and two sisters still living in Japan.

The Japanese student had completed Yahata college and was studying law at Yahata university when his cousin from Watsonville arrived in Japan with the army of occupation, and looked him up. During their frequent visits Matsukuma often expressed his longing to study in United States. The cousin and his mother arranged for Matsukuma to come to the United States, to live near them in Watsonville and attend Hartnell.

Students of Yahata college and university go to school six days a week and both day and night classes are held, the greater attendance being held at night. There are upper-division classes taught in junior colleges in Japan, and the students do more outside reading Matsukuma states.

Matsukuma hopes to be an instructor at Yahata university when he returns to Japan. He graduated from Hartnell last spring and is now taking additional courses in political science and history before enrolling in the University of California.

Soph Dance Attended By About 150 Couples

Over one hundred and fifty couples attended the sophomore class dance after the Hartnell-Compton football game last Saturday. The men's gym was decorated in a Hallowe'en motif, and the couples danced under soft lights to the moody music of Rene Eris' combo.

General chairman for the hallo-

Hartnell Group Claims Flying Is Safer Than Automobile

Local Club Large For J.C. Circles

By Joe Maras

"It's safer flying an airplane than driving a car," is a remark often heard from members of the Hartnell Flying club.

The Hartnell Flying club, with title to four airplanes, is one of the largest clubs of its kind in junior college circles. The airplanes are two Aeronca Champions, used as primary trainers, an Aeronca Chief, used as an advanced trainer, and a four-place Stinson Voyager. The trainers are available to trainees for \$2.50 to \$3.00 per hour and the Stinson for \$6.00 per hour. This includes gas, oil, and maintenance. This by itself is well below the cost of instruction from a commercial flying school.

What does it cost to learn to fly? It is possible for a student to learn to fly and maintain the airplane for approximately \$200. The fee includes part ownership in the airplanes, the instructor's time, plus gas and oil expended. The club's airplanes are also available during the summer months for students who are members of the club. Many Flying club members have taken advantage of this offer and have used the time logged to sharpen their newly found skills.

Another function of the Flying club is the flying meets which are held several times a year. The meets usually lasts two days with dancing and dining consuming the first day. The second and final day of the meet is devoted to the serious business of flying against other clubs and the rules that govern the flying clubs. The Flying club also has charge of the concessions at football games.

The club is, at present, looking for more members. Any interested student can contact Mr. G. Darwin Peavy, Hartnell teacher, for information. The board of directors are Mr. Jay Hickenlooper, Mr. William R. Bullis, and Mr. Peavy.

MPC Lavatory System Is Working

Monterey Peninsula college's new lavatory system went into full work this week as new plumbing which had been done there was finally completed.

Now the above statement isn't a fact; it's just an unbiased opinion. Due to the enlargement of the "M" on the front lawn and the finding of a wooden lavatory in front of the Panther, it is believed that some Monterey students left it there.

Therefore, the conclusion is drawn that MPC must have had a new plumbing system installed for the Lobos got rid of their old, much used "outhouse."

PRESS VISITED

Mr. George Abbott's advertising class visited the El Camino Press Friday morning to observe the processes of letterpress and lithography in printing. Nine students were in the group.

Panthers Seek Winning Road Tonight; Meet Fresno JC Rams

White To Lead Fresno; Takeo Will QB Injured 'Cats'

By LEN KLEMPNAUER

Their season record now standing at three wins, three losses, and one tie, the Hartnell Panthers battle the ever-tough Fresno Rams tonight at Fresno. Game time is 8 o'clock at Ratcliffe stadium.

Like Hartnell, Fresno has had its share of bad luck but have been improving during the latter part of the year. The Rams have notched four victories but have suffered three losses.

Two opponents that both teams met earlier this year were Porterville and College of Sequoias. Fresno has done better than Hartnell against those squads, winning both while Hartnell split.

Last Saturday, the Rams topped Porterville, 33-12. Hartnell barely edged them, 14-13. Against COS, the Panthers lost, 19-9, but the Rams and COS got involved in a scoring spree which found Fresno triumphing, 41-27.

Fresno also defeated Cal Poly Jayvees, 12-6, and Reedley, 25-7. They lost to Stockton, 21-0, Bakersfield, 41-13, and Taft, 33-9.

The Rams are led by Fullback J. C. White, 190 pounds. Their leading ground gainer, White is the "workhorse" of the Fresno squad. He had one of his better nights against Porterville as he romped for three touchdowns.

Quarterback Tom Flores will keep any defense honest with his able passing attack. Against Porterville it was Flores who set up many of the touchdowns with his consistently successful throwing attempts.

Fresh from its spanking at the hands of Compton, 28-0, Hartnell will be trying to get back on the winning road.

One first-stringer, Byron Bird, guard, will be back in the lineup, but Dave Cole, tackle, is a doubtful starter. Also Hal Boutte won't be back at end but probably will be replaced by Zelbert Moore who played a fine game against Compton.

Quarterback Takeo Hirahara will be guiding things but Chuck Filice will see a good deal of action. Hirahara was praised by Coach Tay Brown of Compton for his excellent faking and both boys worked smoothly off the "T" against the Tartars.

Halfbacks will probably be Dave Crocker, leading ground gainer, and Bob Fierro. Liggett Lancaster and Dave Gallegos will see their share of duty.

At fullback will be Ron Bernal who has shown much defensive improvement and is elongating his running average.

Ends will be Moore and reliable Bill Moxley. At tackles Henry Papa and Rowland Payne, whom the

Compton Keeps Win Streak Going; Top Eleven Blanks Panthers, 28-0

The Compton college juggernaut continued to roll on its way to the Junior Rose Bowl as the Tartars posted a one-sided 28-0 victory over trying but undermanned Hartnell at the Salinas Union high school stadium Saturday.

Rated number one of the nation's junior colleges, the Tartars proved before 3,500 fans why they had gone unbeaten in six previous games. Possessing a pony backfield and a plough-type line, Compton had little trouble with the Panthers.

It was a general consensus, however, by the Compton players, that Hartnell was the toughest team they had played this year. The Panthers gained more yardage than any other team and met the Tartars equally in "rockem" lineplay.

The first touchdown was a charity handout. Hartnell fumbled on the opening kickoff and Compton recovered on the former's six. Quickly taking advantage of the break, the Tartars scored on a pass from Swinton Aldrich, quarterback, to end Bob Gudath. Aldrich converted.

A 57-yard drive in the second quarter saw Compton notch a second TD with halfback Lee Mack outrunning three Panthers on a jaunt of 21 yards. Quarterback Al White kicked the extra point.

Taking the second half kickoff, the Tartars marched 90 yards to paydirt. Halfback Jim Waddell did the honors with an end sweep of

Hartnell Runners Defeat San Jose

Hartnell's cross-country tracksters ran away from San Jose junior college last Thursday, 23-33, over the 2.4 mile course here.

Wes Bond, Hartnell's ace distance man, captured first place. Other Panthers who placed were Charles Kelch, 4; George Harris, 5; Henry Mazzatelli, 6; and Rickie Axe, 7.

69'ers Still Leading Intramural Volleyball

The 69'ers kept their lead in the noon intramural volleyball league but the Beach Boys and 6-Packs were making strong bids to gain the top of the heap.

Near the halfway point of the schedule, the 69'ers posted 14 points, the 6-Packs 10, and the Beach Boys 9. The leaders are the only undefeated team.

Standings at presstime:

| Team | W | T | L | Pts. |
|------------|---|---|---|------|
| 69'ers | 7 | 0 | 0 | 14 |
| 6-Packs | 5 | 0 | 1 | 10 |
| Beach Boys | 4 | 1 | 1 | 9 |
| Dead Oaks | 3 | 0 | 4 | 6 |
| Flippers | 1 | 0 | 7 | 2 |
| Magoons | 0 | 1 | 6 | 1 |

Compton coach rated the best man on the field, will probably start.

Max Anderson, Jamie Bareng, and Bird will all be moving around in the guard post while Billy Worrell will get the call at center.

Len Klempnauer

ON THE LINE

Hartnell might not have upset Compton Saturday but before the game ended the Tartars found out that they had been in a battle. For the Panthers put up the best contest the Tartars have been in yet this year.

Coach Tay Brown of Compton stated that he thought Takeo Hirahara was an excellent quarterback and it has been said that some of the Tartar players remarked that they often didn't realize where the ball was because of "Tak's" faking.

We've been told, unofficially, that the Compton grid mentor rated tackle Rowland Payne the best ball player on the field and that he should make all-American.

A sportswriter from Los Angeles commented on the aggressive Jamie Bareng, guard. When told that end Zelbert Moore almost entered Compton, the scribe stated that the Tartars could have used him for they're very weak at the end posts.

Compton's racehorse backfield, to us, was the outstanding element on the field. Although we admit their line was hard charging, and etc., we feel that Hartnell wasn't too far behind in that department.

That's not taking anything away from Hartnell's backfield. They're good, but the Compton backs would be the dream of any junior college coach. Given a glimpse of space they were gone and were real hard to catch.

Hartnell has been steadily improving, and on a good day can really be tops. The early season blemishes, mainly the loss to COS, can partially be cleared against Fresno tonight.

Hartnell lost to College of Sequoias, 19-9, and edged Porterville, 14-13. Fresno, on the other hand, topped both, COS, 41-27, and Porterville, 33-12.

Comparative scores give the edge to Fresno. But improvement, a better criteria, gives the edge to Hartnell.

Hartnell Panther Statistics

Basketball Mentor Holds Early Drills With 15 Candidates

Fifteen cagers have turned out for the Hartnell basketball team but more are expected after the termination of the football season, according to G. Ed Adams, varsity basketball coach.

Until the final turnout is recorded, Adams said that he has no idea as yet who will play first string. At the present time the squad is working on basic fundamentals and is working into "shape."

Currently there are four returnees from the 1954-55 team. They are Bill Rodriguez, Bob Stevens, Glen Tucker, and Walt Harris, all of Salinas.

Newcomers to the team from Salinas are Bob Woodring, Gus Anderson, Ron Critchfield, John Vear and Chris Lee.

Others who are out are Bill Cox, Jerome, Idaho; Laurence Munoz, Morgan Hill; John Histinger, Lafayette; Don Lintz, Watsonville; Fred Gonzales, Hollister, and Jack Russell, Chicago, Ill.

The 1955-56 edition of the Hartnell basketball team will make its first appearance December 2 when it performs in the Fall Tournament at Salinas against Monterey Peninsula, Modesto, and Citrus.
